

Southern Park County Fire Protection District

Public Records Redacted

I received a takedown notice, Monday, May 05, 2014 at 12:01 PM, from an attorney with Overturf McGath Hull & Doherty, (representing SPCFPD in the settlement), identifying the following documents required to be removed from the district's website, with a deadline of Wednesday (May 07, 2014) morning:

- a. Press releases dated January 7, 2014, January 14, 2014 and February 11, 2014;
- b. April 9, 2014 Notice that post-termination hearing is vacated; and
- c. Board Meeting Minutes for meetings on January 2, 2104, January 9, 2014, and January 16, 2014.

As long as I remain a firefighter and my domain, guffeyfire.net, remains identified as the official website of the district, I'm apparently compelled by any settlement agreements binding the fire department, even if, as in this case, I'm not privy to the details of those agreements. Therefore, I have **voluntarily complied fully** and removed the requested public records from the server hosting the guffeyfire.net domain (KnownHost.com), as of May 05, 2014 at 21:32 MDT.

The following list correlates the documents requested to be removed with the linked name on guffeyfire.net, the actual filenames (with sizes), and an MD5 hash, which should allow all interested parties the ability to verify the digital versions previously made available on this website have been properly expunged.

a. Press Releases:

- Link: [PR.2014.01.07] - Mike Simpson Termination
File: BoardStmtJan7th2014.pdf
